

# Mad Science Summer Camps 2009

7

Weeks of  
Summer Camp  
Fun!

## Sparkling Imaginative Learning

### CAMP 1: Claws, Codes, and Constellations

Explore space, nature, secret codes and sports. How much better can it get? You'll discover how to send secret messages to your friends. Get a taste for space as you become a young astronaut. Investigate the earth and nature. Discover the science of sports. Plus many more exciting activities!

### CAMP 2: Science Wizards

Discover how things move with science. Take apart pellets to see what an owl can't digest. View the world through a camera obscura that you make yourself. Join a team of campers engineers and build bridges, domes, cubes, and pyramids. Assemble and control pulleys, levels, catapults, and simple machines. Make your own sidewalk chalk, crystal gardens, and chromatography-dyed T-shirt!

### CAMP 3: Chemicals, Cells, and Crime

Get ready for many exciting chemistry related activities from the Mad Science Laboratory! Use your skills as a chemist to make your own radical reactions with batteries, a chemical clock, and more. Team up with other campers to solve the "Great Ice Cream Caper"

### CAMP 4: Crazy Chemworks!

Hop on board the chemistry express for a high-speed science experience. Perform instantaneous experiments in this fast-paced camp on split-second reactions that go like mad! Campers will take home their own set of Crazy Chemworks lab ware, plus much more!

### CAMP 5: NASA: Journey into Outer Space

From our earth's atmosphere to the outer reaches of our solar system, this hands-on space program sends children on a quest for exploration! Comets, planets, stars and more are all waiting to be discovered. Learn about the four forces of flight, the challenges of space travel, and other cool space related activities. Includes many awesome science kits!

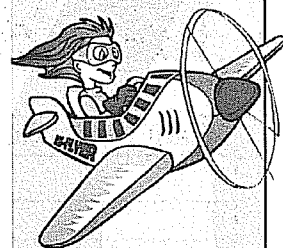

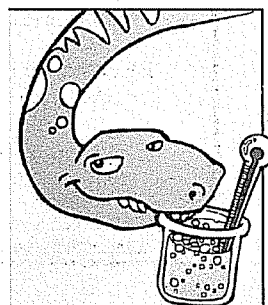

### CAMP 6: Secret Agent Lab

ALL NEW FOR 2009! This completely new camp is packed with secret spy gadgets and funky forensic gear. Attend Spy Academy. Study coded messages. Test fake blood and bag'n'tag evidence. Build and break into your own safe. Learn the science of security Find the bad guys and put them away for good!

### CAMP 7: Rockin' Rockets and Radical Robots

3, 2, 1...Blastoff! Study the science of the future as we study, create, and launch rockets and build our own radical robots!

- Seven different week long camps to choose from
- Each day has its own exciting science theme
- Low instructor to child ratio
- Discounts given for multiple camps or siblings
- Hands-on science fun for children ages 5-11!
